KLOTZ DIGITAL SIGNS UP SAV AS VALUE-ADDED RESELLER IN FRANCE

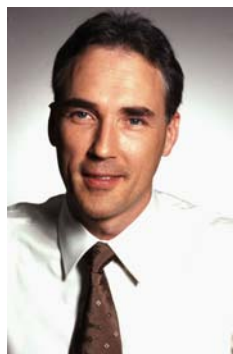

Munich, March 2005 – Effective immediately, SAV (Systèmes Audiofréquence Vidéonique) has signed an agreement as KLOTZ DIGITAL's new exclusive sales partner to cover the French Radio Broadcast market. SAV will be selling KLOTZ DIGITAL's complete product range and can provide all-digital solutions, fully integrated and installed, on a turnkey basis.

Founded in 1977 and established in the radio broadcast market since 1991, SAV has become the leading supplier of broadcast solutions in France. An experienced team of 50 employees, 22 of whom are engineers, sells and supports audio and video equipment throughout the whole country and guarantees an excellent customer focused service. The marketing and sales cooperation is a result of the joint participation at Siel-Le Radio 2005, where both companies successfully introduced KLOTZ DIGITAL's new digital radio OnAir console AEON for the first time in France.

Audry Sales, President, Systèmes Audiofréquence Vidéonique

SAV's President Audry Sales comments, "The distribution agreement with KLOTZ DIGITAL extends SAV's growing range of products with the intake of this well-known portfolio, including some very innovative and unique items."

Joachim Rankenhohn,
Vice President, KLOTZ
DIGITAL Europe

"SAV is an established sales partner for us with a proven track record, supported by experience and profound knowledge of the audio media industry. SAV has a dedicated sales and technical support team, as well as appropriate sales channels to manage our product range and this focus is already bringing in new business for us," says Joachim Rankenhohn, Vice President KLOTZ DIGITAL Europe. KLOTZ DIGITAL is consequently embarking on a strategy to expand and strengthen its sales partner network in Europe, by signing up new partners.

About KLOTZ DIGITAL:

KLOTZ DIGITAL AG of Munich, Germany is the world leader in AudioMedia Platform Technology. KLOTZ DIGITAL manufactures a variety of digital audio mixing consoles, the VADIS AudioMedia Platform, and VARIZONE systems for music distribution, paging and safety announcement installations. KLOTZ DIGITAL has 15 years experience in manufacturing and installing digital radio consoles and audio infrastructures. In fact, KLOTZ DIGITAL has over 1250 digital radio consoles and more than 1000 VADIS frames in service today. For more information contact KLOTZ DIGITAL voice: +49-89-45672-100, e-mail: Europe@klotzdigital.com or on the web at: www.klotzdigital.com

AEON Audio Networking Console:

Combined with an integrated state of the art router, AEON provides a cost-effective mixing solution for small to medium market radio stations. AEON is based on KLOTZ DIGITAL's ultra slim console modules (1 inch / 2.5cm thick) allowing flexibility in console layouts and studio set up. AEON is available with 8, 12 and 16-fader control surfaces with professional features like 100mm faders, alphanumeric displays with 16 characters in two lines per channel, large ON/OFF buttons, CUE/PFL, programmable TalkBack functions, freely assignable routing and function key and status indication LEDs for the most important parameters and functions. The "AEON Setup Tool" software is included and enables users the configuration of the system exactly according to one's personal requirements.
