KLOTZ DIGITAL APPOINTS FG-ELEKTRONIK AS NEW DISTRIBUTOR FOR VARIZONE

Munich/Rueckersdorf, January 2006 – KLOTZ DIGITAL AG announced today that it has selected FG- Elektronik GmbH Power- & Soundsystems as its new distributor. Effective immediately FG-Elektronik will exclusively represent KLOTZ DIGITAL's public address system VARIZONE throughout Germany.

As manufacturer and reseller FG-Elektronik GmbH has been in the public address market since more than 25 years. FG-Elektronik possesses an extensive knowledge of the market and its competitors as well as proven expertise in engineering and sales. The company offers customers and prospects highly qualified consulting, planning,

technical support and training.

Worldwide KLOTZ DIGITAL is one of the leading suppliers of hardware and software for digital audio signal processing and distribution including digital mixing consoles and routers

for the broadcast market. For many years KLOTZ DIGITAL has been developing and manufacturing leading edge public address systems, which are used in many prominent installations. Best known are the information and evacuation system at Munich Airport's Terminal 2 and the PA system at Bertelsmann's premises "Unter den Linden" in Berlin.

VARIZONE is the development platform of the PA technology which offers scalable and versatile systems which are favored in medium and smaller installations. It is the first fully digital system for digital signal processing in facilities as well as single rooms. A digital bus supplies decentralized amplifier modules simultaneously with 8 audio channels, data and supply voltage via standard wiring. The bus architecture allows an extremely flexible assignment of all units, also known as multi zoning. VARIZONE (according to DIN EN 60849) is the assigning system to be used in voice evacuation. VARIZONE is a multi-purpose audio system offering flexible routing and top level signal processing. Via its versatile interfaces VARIZONE combines true flexibility for all types of audio media equipment and video installations which results in smooth installations and retention of the current equipment install base.

###

KLOTZ DIGITAL AG of Munich, Germany is the world leader in AudioMedia Platform Technology. KLOTZ DIGITAL manufactures a variety of digital audio mixing consoles, the VADIS AudioMedia Platform, and VARIZONE systems for music distribution, paging and safety announcement installations. KLOTZ DIGITAL has 15 years experience in manufacturing and installing digital radio consoles and audio infrastructures. In fact, KLOTZ DIGITAL has over 1250 digital radio consoles and more than 1000 VADIS frames in service today. For more information contact KLOTZ DIGITAL Europe.
